Education and Certifications

Doctor of Philosophy, Special Education, May 2006 - Columbia University, Teachers College, New York, New York
Master of Arts, Special Education, May 2002 - Columbia University, Teachers College, New York, New York
Bachelor of Science, Psychology, May, 2000 - Fordham University, Bronx, New York

New York State Certified Special Education Teacher Birth-12
New York State Licensed Behavior Analyst
Connecticut Comprehensive Special Education K-12 certification, interim
Connecticut Licensed Behavior Analyst
Massachusetts Licensed Behavior Analyst
Board Certified Behavior Analyst-Doctoral

Higher Education Experience

Department of Special Education and Leadership, Former Chair, Tenured Associate Professor, Mercy College,
Manhattan, Dobbs Ferry, Bronx, New York, 2007-Present

- Deliver instruction, through both in-person and fully online classes to undergraduate and graduate level students in the field of Special Education at the Early Childhood and Childhood level and Applied Behavior Analysis coursework
- Courses taught and/or developed include Foundations of Special Education, Development and Exceptionalities, Diversity, Equity, and Inclusion, Consultation and Collaboration, Differentiation, Methods and Materials for Teaching Students with Disabilities Birth through 6th grade, Principles and Strategies of Classroom Management, Ethical Considerations, Evidence Based Teaching Practices, Verbal Behavior, Functional Assessment and Positive Behavior Supports, Functional Behavior Assessment and Positive Behavior Supports, Autism, Intensive Practicum for Behavior Analysts
- Maintain up-to-date and relevant references for bibliographies and course activities as well as complete Syllabi revisions including course alignments with outcomes and standards
- Provide students with functional, practical examples and course activities in order to provide for application and generalization of content
- Utilize evidence based approaches to teaching both in person and online through BlackBoard, including active student responding, universal design, flipped classroom, problem based and cooperative learning activities, and mastery based learning, Blackboard collaborate
- Provide advisement and mentoring to potential graduate candidates as well as current students in our Special Education programs and undergraduate students pursuing our 5-year programs
- Currently creating new Master of Science degree program in autism studies
- Developed in conjunction with colleagues, a new NYSED approved Master of Science Program in Teaching Students with Disabilities in Early Childhood and Childhood, including completion of state application, presentations to college curriculum committees, and faculty senate
- Developed and submitted registrations to NYSED for Special Education MS programs for offering at NYC/Manhattan Campus and via Distance Learning
- Completed curricular revisions and NYS application process for licensure qualifying program in Applied Behavior Analysis
- Prepared our new MS program for CAEP accreditation, including the development of a crosswalk aligning key assessments to CEC standards and the unit's conceptual framework, managed data collection of key assessments on TaskStream, and participated in ongoing data analysis at Mercy College School of Education assessment retreats
- Completed and submitted our department's SPA report to CEC
- Collaborated with marketing and advertising to promote new MS program, as well as visit local school districts

CHRISTINE LANG, PH.D. BCBA-D, LBA

Page Two

to develop onsite cohorts for our program to increase enrollment

- Participated in the Unit's initial CAEP review involving site visit interviews and poster session presentations
- Completed curricular changes and new course development for the Applied Behavior Analysis program for accreditation of the BACB 4th edition standards
- Mentor adjuncts teaching special education courses, including completion of observations and summary reports
- Oversee team of 5 Special Education faculty department members and 5 adjunct professors
- Responsible for the assignment of faculty to special education courses per semester including adjuncts

Department, School, College and the Broader Community Service Activities

- Chairperson of the School of Education Curriculum Committee
- Served as Member of the Unit's "Assessment Committee," in which assessment procedures, data collection and analysis, annual data retreats, and CAEP areas in need of improvement, are reviewed and addressed
- Served on the School of Education's "Certification Exam Advisory Committee," whereby strategies and procedures are discussed and developed to assist students with teacher certification exams, including Content Specialty Tests, Educating All Students, and edTPA.
- Served as Secretary of the college-wide-Senate committee, Academic Standards, Policies, and Regulations
- "Parent Center" committee member/Rivertown Parents Committee member
- Served on Autism research task force with School of Health and Natural Sciences
- Participated in the iPad app review development committee as a subcommittee of SHNS partnership
- Community outreach, write proposals and provide consultation to local school districts within Westchester County based on established partnerships. Developed a proposal and contract for City School District of New Rochelle and Mercy College collaborative in special education and math
- Invited Theme Editor for *Global Education Review* for the issue "The Global Context of Disability" and assisted with the development of the Call for Papers, reviewed and tracked abstract submissions and responded to authors, participated in the selection of papers to be reviewed for this issue, reviewed full manuscripts and provided feedback to authors
- Chaired the School of Education initiative: "Educator's Professional Academy"
- Volunteer presenter at local SEPTA (Special Education PTA) meetings within Westchester County
- Participated in Annual Autism Information Fair in Westchester County as a representative of Mercy College to provide information about our program in Applied Behavior Analysis

Adjunct Professor, American International College, Springfield, Massachusetts, 2005-2006

- Designed and implemented weekly lesson plans for graduate level students
- Consistently monitored and assessed student progress on course objectives
- Provided differentiated instruction through modifying assignments, lectures, and class activities

Teaching and Consultation Experience

Special Education Teacher, Columbus Elementary School, New Rochelle, New York, 2002 - 2007

- Classroom teacher for grades K, 1, 2, and 3, 4, 5
- Managed and trained classroom staff members on classroom procedures and instructional methods
- Supervised and mentored student teachers from local colleges and universities
- Provided district-wide and school-based training for teacher aides and assistants
- Maintained close correspondence with parents, colleagues, and administrators in order to continuously develop and implement a continuum of services for students that meet educational, school, and family needs
- Delivered consultative services to general education teachers regarding instructional needs and classroom management as part of the school's Instructional Support Team

CHRISTINE LANG, PH.D., BCBA-D, LBA

Page Three

- Organized weekly activities and projects which facilitate mainstreaming opportunities for students with special needs such that special education services can support access to general education and establish a more inclusive school environment
- Responsible for the design and implementation of instructional programs for students within special education classrooms based on Individual Education Plans

Special Education Teacher/Supervisor, Fred S. Keller Preschool, Yonkers, New York, 2000-2002

- Lead teacher for "integrated classroom" consisting of preschoolers with and without disabilities
- Designed programs and interventions for students and delivered 1:1 as well as small group individualized instruction
- Organized weekly classroom meetings and established weekly classroom goals for teachers, teacher
- Managed employee participation in PSI (personalized system of instruction) modules, including review of progress and tracking completion
- Supervised student interns which involved conducting daily observations and organizing weekly meetings to discuss research
- Wrote/reviewed monthly student progress reports, annual educational summaries, and attended CPSE/CSE meetings
- Provided parent education to preschool parents which included arranging weekly meetings at school, making home visits, establishing objectives for parents, as well as monitor parent and student progress at home
- Conducted intake evaluations for prospective students
- Member of the school's Institutional Review Board (IRB)

Behavior Consultation and Therapy, Westchester County, New York City, Connecticut, 2004-Present

- Provide direct educational and behavioral consultation to preschool and elementary/secondary school programs
- Support organizations in developing and facilitating the use of positive behavior strategies
- Specialize in working with children with Autism Spectrum Disorder, ADHD, emotional/behavior disorders, speech and language impairments, learning disabilities, social skill needs and behavior management issues
- Conduct educational evaluations, functional behavior assessments, design positive behavior support plans, and train families and teachers regarding implementation of interventions
- Select, modify, and individualize evidence based curricula for public school districts and private schools
- Design functional academic, social, and behavioral programs, and life skills activities for students and classrooms
- Deliver consultation and training to home-based team members, as well as school employees
- Provide family training services to parents of students with special needs
- Provide professional development workshops for schools and organizations

GRANTS

- Awarded a 20,000 Federal grant through a partnership between Mercy College and Westchester Arc to develop curricular materials and provide employee training to teach individuals with development disabilities to use specific technology devices in a vocational setting (March 2015-December 2015)
- Participated in the writing and development of the special education component to the 'Race-To-the-Top' New York State Clinically Rich Teacher Preparation Program. Mercy College was awarded 1.4 million dollars to establish a Mercy College graduate residency program in mathematics education for the Yonkers Schools with a certification in Mathematics and Students with Disabilities. (2011-2015)
- Awarded a 1,000 grant through the Graduate Research Fellows Program Project-based Peer Tutors, through Graduate Pass. The project is focused on investigating the use of iPads in special education and teachers' use of applications to assist students with special needs across various domains. (2011-2012, 2012-2013).
